A modern kitchen with a white countertop, stainless steel appliances, and a large window with roller blinds. The room is bright and clean, with a white ceiling and light-colored walls. A green geometric graphic is overlaid on the right side of the image.

roller blinds

Roller blinds offer both welcome shade in the summer and insulation in the winter.

With technical advances in fabric and control, roller blinds add versatility and simple elegance to any interior settings.

Venluree has an extensive range of inspiring fabrics for shade and heat control or designs and texture to compliment your interior décor.

Venluree roller blinds are provided with colour coordinated bottom rails, control chains and control mechanisms easily automated with Somfy automation systems for effortless control at the touch of a button.

Combinations of fabrics are available with dual blind systems, giving you privacy and shade control all in the one system.

Simple manual controls for precise height adjustment or available with motorised control boxes ☰

BLOCKOUT ROLLER BLINDS

For total privacy and light control, Blockout Roller Blinds can be adapted to a number of environments to achieve complete control with accuracy and simplicity. Fabrics can be supplied with a thermal foam coating on the back to give better insulation qualities.

TRANSLUCENT

Translucent fabric is an opaque style of fabric that lets transfused light in to the room. As it is not an open weave so gives a degree of privacy at night.

SUN FILTER

Gives you the best of both worlds, allowing you to reduce heat, glare and fading while preserving your view and privacy. When not required they roll discreetly away.
