The image shows a window with insect screens. A large, semi-transparent red polygon is overlaid on the right side of the window. The text 'insect screens' is written in white lowercase letters on this red shape. A circular inset in the lower-left quadrant provides a magnified view of the black mesh screen. The window frame is light-colored, and the view outside shows green foliage.

# insect screens

### RETRACTABLE SCREENS

With Venluree's retractable flyscreen system you no longer need permanent insect control at your window all year round.

The versatility of retractable fly screens means when you don't need them they can easily be retracted back out of sight and out of the way. Retractable fly screens can be manufactured to suit windows or doors, retracting vertically or horizontally. Using strong fibreglass mesh and colour coordinating the frame to suit your joinery. You can simply pull the retractable insect screens across when required and retract away out of sight when finished, allowing you to enjoy your home to its full capacity, insect free, in a modern and affordable way.

### WINDOWS - RETRACTABLE

- ✔ Can be made to operate vertically or horizontally
- ✔ Windows can be made up to 2.3 metres wide and 1.8 metres high
- ✔ Cassette and channels can be powdercoated any colour.

### DOORS - RETRACTABLE

- ✔ Can be made to operate vertically or horizontally
- ✔ Options available of double doors for large openings
- ✔ Doors can be made up 1.6 metres wide and 2.4 metres high

### SCREENS - SLIDING, HINGED & FIXED

To give you protection from those unwanted insects Venluree can offer aluminium framed insect screens that can be fixed in position, sliding or hinged to suit your existing joinery. Using fibreglass mesh and made to fit any size windows these screens offer permanent protection so you can leave your windows and doors open with confidence.

### MAGNETIC INSECT SCREENS

Enjoy year round protection from flies and insects. Our exclusive range of magnetic insect screens fit neatly to provide an unobtrusive barrier against flying insects. They are easily opened or removed for cleaning.

For seasonal protection against insects, magnetic screens are economical and easy to install or remove, for both aluminum and timber window frames. The magnetic strip can be colour matched to existing joinery, giving a discreet look and feel.

### OPTIONS

- ✔ Hinged and sliding insect screens provide a permanent barrier against insects
- ✔ Fibreglass insect mesh standard
- ✔ Powdercoated in standard colours or your choice
- ✔ Can be fitted as a fixed hinged or sliding screen
- ✔ No rusting and easy to use
