## Vertical Blinds

Venluree vertical blinds add a new dimension to home or office interiors, they are versatile, low maintenance and give you the ability to control privacy and light.

If you are looking to decorate your office or if you are one of those people who is attracted to a sophisticated style, then you will love

### **Vertical Blinds**

. These are perfect for décor which has a modern and subtle design, as these highly compliment such settings. Hence why

### **Vertical Blinds are**

ideal for offices and any kind of sophisticated setting, to add a formal and classy touch.

### **Venluree**

makes

### **Vertical Blinds**

in a vast range of colours and designs, and also offers you the option to choose between controlling these with a wand or a cord control system. After all, our job is to make things according to your taste. Many people are a little iffy about cord and wand systems but we design them by keeping safety in mind and making sure that no cord is hanging out. These systems are unobtrusive so that you do not face any mechanical issues.

A plus point that

### **Vertical Blinds**

have is that they keep your furniture and carpets safe from harmful and harsh sunlight. If you are a lover of mild sunlight then you can easily adjust it that way. Venluree vertical blinds have an automatic aligning system that distributes the vertical blades evenly to give the window full

### **FEATURES**

Wand control, safe for children and easy to operate

Automatic self-aligning mechanism for even distribution of blades

Better light control and more economical than curtains

Protects carpets and furnishings while providing privacy

Unique 89mm and 100mm blades designed for New Zealand joinery

Custom designed and installed

### **OPTIONS**

89mm and 100mm wide blades available

Comprehensive colour range

Powder-coated aluminium railings to coordinate

Option of a centre or side opening

coverage. This also acts as a saviour in regards to privacy, as this way there are no peepholes.

You get to choose your vertical blinds and how they operate. Which blades would you like and do you want your blinds to open from the side or the middle? It's your choice. The front fabric layer moves independently of the back fabric layer allowing the blind to be positioned in an open position when the stripes line up or in a closed position when the stripes overlap.

What's amazing about

### **Vertical Blinds**

is that they are highly convenient and easily cleaned. You will not have any issues with these blinds. They are highly manageable and make the room look very neat and classy. Order from

### **Venluree**

and you won't be disappointed.
