

Roman Blinds

Venluree's Roman Blind range utilises curtain fabrics and lining from our extensive curtain range.

What are Roman Blinds and its origin?

Originating from ancient Rome, Roman blinds have evolved to meet contemporary needs while maintaining their timeless elegance. Initially conceived out of necessity over 2000 years ago, Roman blinds have transcended their utilitarian origins to become a staple in modern interior design. Today, they serve not only as a practical solution for light control and privacy but also as a sophisticated design element that adds depth and texture to any room.

Benefits of Roman Blinds

OPTIONS

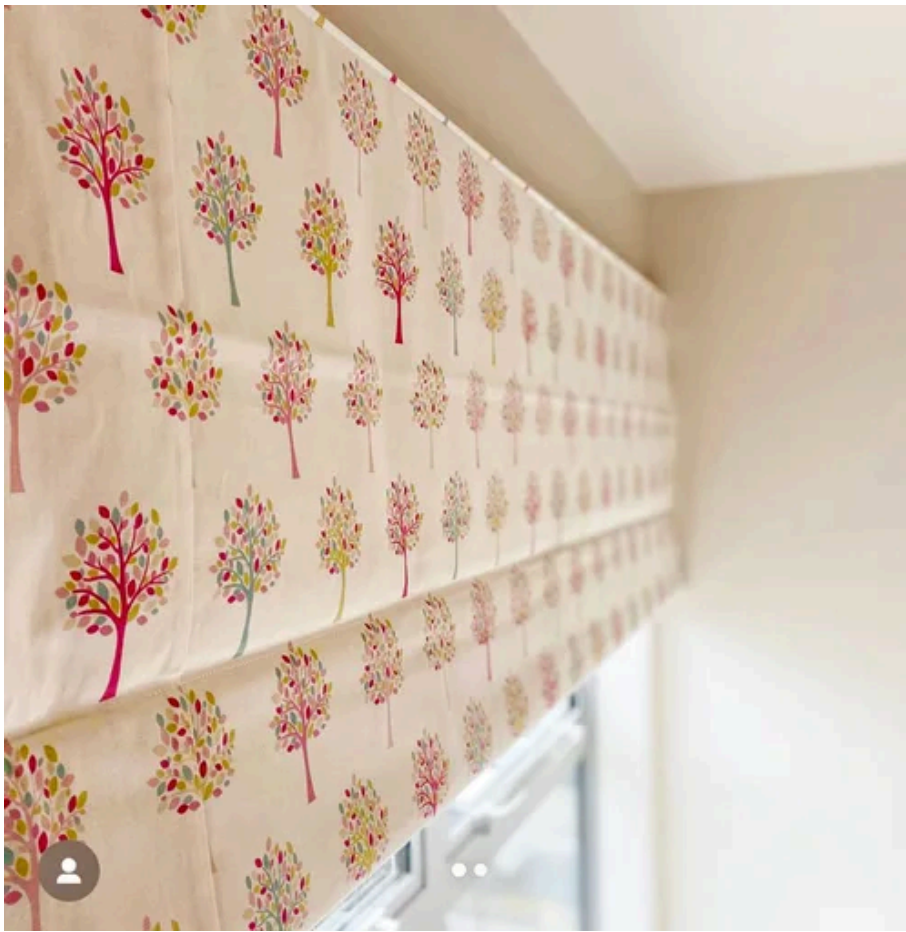

Seamless (used for continuous pattern matching)

Spined (recommended for blinds over 1800mm wide)

Back or Front tuck position

Inside(top) or outside(face) fit

Wide range of fabrics & colours to choose from

Roman Blind Installed by our Wellington Team – Fabric Orchard Autumn

When traditional curtains are not feasible due to space constraints, yet thermal insulation remains a priority, Roman blinds offer an ideal alternative. Their versatile design allows them to be installed both inside and outside window frames, providing flexibility in terms of placement and functionality. This adaptability ensures that even in rooms with limited space, such as small windows or narrow alcoves, Roman blinds can deliver both style and substance.

One of the key features of Roman blinds is their ability to offer a clean and tidy appearance, free from the bulkiness often associated with traditional curtains. This streamlined aesthetic makes them particularly well-suited for modern interior settings where minimalism and simplicity are valued. Whether raised above the window or fully extended to provide complete coverage, Roman blinds exude a sense of sophistication and refinement.

In terms of functionality, Roman blinds offer the best of both worlds. Like curtains, they can be lined to provide various degrees of light control and privacy. Whether you prefer a total blackout effect or a soft diffusion of natural light, Roman blinds can be customized to meet your specific needs. Additionally, their thermal properties help to regulate room temperature, making them a practical choice for energy-efficient homes.

Why Choose Venluree Roman Blinds

Installed by our Manawatu Team – Fabric Textilia Wildwood

Venluree's range of Roman blinds encompasses two distinct control options to suit different preferences and requirements. The traditional wooden batten method provides a classic aesthetic, while the chain-driven mechanism offers modern convenience and ease of operation. Both options are designed to ensure smooth functionality and long-lasting durability, providing peace of mind for homeowners.

Moreover, Venluree's commitment to quality is evident in every aspect of the manufacturing process. By producing Roman blinds locally in New Zealand, Venluree can closely monitor and control the quality of each blind, ensuring that only the finest materials and craftsmanship are utilised. This attention to detail results in Roman blinds that not only look exquisite but also stand the test of time. Additionally, Venluree's in-house fabric stock allows for quicker production and delivery, ensuring that you receive your custom Roman blinds promptly without compromising on quality.

In conclusion, Roman blinds offer a perfect blend of style, functionality, and versatility, making them a popular choice for homeowners seeking to enhance their living spaces. Whether you're looking to create a cosy retreat in a small bedroom or add a touch of elegance to a contemporary living room, Roman blinds provide the perfect solution. With Venluree's extensive range of options and commitment to quality, you can trust that your Roman blinds will not only meet but exceed your expectations.
