

Honeycomb Blinds

Suitable for any type of room and window shape, Honeycomb Blinds are very versatile, they have a stylish look and have excellent energy efficiency.

Honeycomb Blinds are energy efficient window shades. They keep the heat of the sun away in the summer and maintain the heat inside your home in the winter.

Honeycomb Blinds are the ideal choice for your home as they are light, efficient and they give your room a great look. With

blockout and translucent fabrics

available and the product made from 100% polyester, it makes them very easy to clean.

There are a number of control options available. You can control the light to the top or bottom of any window, using a standard pull cord or go child safe without cords. Custom made, to fit any window shape in your home.

1 year

Care and Cleaning

Remove dust with a vacuum or damp cloth. Spot Cleaning should be done with a clean cloth using mild detergent, dab the area to be cleaned as harsh rubbing may effect the fabric
