

Cellular Blinds

Suitable for any type of room and window shape, Cellular Blinds also known as Honeycomb Blinds are very versatile, they have a stylish look and have excellent energy efficiency.

Cellular Blinds are energy efficient window shades helping you keep the heat of the sun away in the summer and maintaining the heat inside your home in the winter time.

Cellular Blinds are the ideal choice for your home as they are light, efficient and they give your room a great look. With **Blockout and Translucent fabrics** available made from 100% polyester it makes them very easy to clean.

With a number of control options available, giving you the ability to control light to the top or bottom of any window with standard pull cords or child safe without cords. Custom made, to fit any window shape in your home.

3 years

Care and Cleaning

Remove dust with a vacuum or damp cloth. Spot Cleaning should be done with a clean cloth using mild detergent, dab the area to be cleaned as harsh rubbing may effect the fabric
