

Sheer Elegance Blinds

Sheer Elegance Roller blinds Controlling the light while maintaining the view. A striking new blind for windows in the modern home.

Sheer Elegance is a decorative fabric that gently filters and softens daylight whilst offering you privacy. The Sheer Elegance blind is a combination of stunning fabric strips and open mesh strips. With a Sheer Elegance blind, you will enjoy quality design and manufacturing. With a wide range of fabrics, featuring translucent, block out and modern tones, there is something to suit any room in the home.

Sheer Elegance roller blinds have two layers of fabric that pass each other vertically with horizontal stripes providing light and privacy control.

The front fabric layer moves independently of the back fabric layer allowing the blind to be positioned in an open position when the stripes line up or in a closed position when the stripes overlap. Sheer Elegance Roller blinds have a range of colour coordinated cassettes and control cords to match the wide fabric range available.

3 years

Care and Cleaning

Remove dust with a vacuum or damp cloth. Spot Cleaning should be done with a clean cloth using mild detergent, dab the area to be cleaned as harsh rubbing may effect the fabric
