Timber Venetian Blinds

Timber Venetian blinds bring warmth and style to your living environment.

Timber Venetian blinds

from Venluree provide you with a chic contemporary finish or a colonial traditional feel. Available in three modern in-trend painted colours or naturally stained to match classic homes. Venetian Blinds are offered in three materials: Polymer (Evolution Venetians), Aluminium, and Timber.

OUR MANUFACTURING PROCESS FOR WOODEN VENETIAN BLINDS

Venluree only uses timber that is grown as plantation timber and managed for sustainability. This ensures an environmentally friendly product and an ongoing supply. With all the benefits of longevity, thermal insulating, acoustic properties and the strengths of natural durability, our painted or stained

timber venetian blinds

offer the best of both worlds.

We employ the latest technology in our coating process. The timber venetian slats are dipped and coated a number of times with a high-quality Ultra Violet protective film. This seamless finish means your timber blinds are water-resistant, with an ultra-smooth surface that ensures ease of cleaning. A quick wipe with a soft, damp cloth is all that is required.

Venluree's

timber venetian blinds

bring warmth and style to your living environment and have fantastic insulation qualities that give character to any room.

All venetian blinds

are great for light control, as they give you the ability to direct light into your living spaces. You can let light into your home and yet still provide privacy. Simply pull the control cords to lift the blind up and out of the way to reveal your view. As with all venetians,

Timber venetian blinds

can be custom made to fit special shaped and angled windows. This makes them a great choice when faced with an architecturally designed home.

So whether it's a contemporary chic minimalistic look, Hamptons style or a traditional colonial finish you're after, then
