

## Straight Drop Awning

When you own a house, you want to get the most out of it. This means that you set your house exactly according to your personal preferences and make sure that everything is top-notch. There are some things which every household requires though. One of these things is awnings. If you have a big garden and your house is exposed to the sun, then this is something which falls into the category of needs not wants.

Venluree provides you with their top quality **Straight Drop Awnings**. These are extremely flexible and will not take nature away from you as well. Traditional awnings are used for shade purposes mostly but these awnings offer you protection from harsh weather conditions, insects, and sun exposure. The installation can be done exactly according to your liking so the aesthetics of your home will look terrific..

**Straight Drop Awnings** are one of the most trusted solutions for outdoor protection whilst having a range of robust design and material. Another thing which makes these awnings so convenient is that these are self-balancing. Venluree's sealed blind system is your armor against weather conditions which are not in your favor. These will help protect you and your furniture from rain, dust, glare, and wind. This also helps greatly in maintaining the house as you will not have to clean up as often as usual due to the weather. You can enjoy the natural climate to the fullest without it disrupting your peace.

By now you must be busy making your mind but one thing for sure that you will not compromise on the way your precious home looks like. Understanding this we give you great neutral color options such as Aluminium channel colors, white, Crème paperbark black woodland and grey. Not only are these neutral but also extremely chic and classy colors. There are multiple fabric options available as well which are acrylic canvas – docrill shade view and mesh clear 0.75mm PVC.

### WEATHER PROTECTION

Add an extra room to your living area with a Ziptrak system that is weather tight made from Powdercoated aluminium and Solid PVC or Exterior mesh. Built to withstand wind and rain.

### INSECT BARRIER

Avoid those pesky mosquitoes and flies from bothering you and your guests. Ziptrak® blinds allow you to spend hours outdoors without the need for toxic bug repellent sprays.

### EASY AND FAST OPERATION

The track guided system is simple and safe to operate – no chains, ropes or pullies. Using our patented spring-balanced track system, the blind easily glides up and down, stopping in any position.

Venluree also offers you free measuring and quote to give you a good head start before you make such a major choice. This is one of the best and more effective outdoor solutions you can find which is why if you have a big garden and live in an area with unpredictable weather the **Straight Drop Awning** is a must for your home.

Choose the fabric and colour of your choice and give your homes the protection it deserves. This will also save you from future maintenance costs making it an ideal buy for you.
