## Verishade

The softness and style of curtains with the versatility of blinds

### Veri Stylish

The soft fabric hangs beautifully. There are no weights or chains so you can walk through them anywhere, whether they're opened or closed – they just sway out of the way and settle back perfectly. This makes them perfect for creating a soft feature across a large opening.

Verishade is perfect for creating a soft feature across a large opening. With no weights or chains, the beautifully hung fabric allows you to walk through them, whether they are open or closed.

### Veri Functional

Veri Shades can span up to six metres. With a new unique patented designed Veri Shade, you can have the elegance and versatility of a sheer, with the privacy of a curtain. With the turn of a wand, you can easily adjust the Veri Shades to control light levels depending on the position of the sun, or privacy required.

### Veri Versatile

Veri Shades use a single track, giving you more space in your room and only take up half the space that curtains would. The fabric folds are soil resistant and can be easily taken down to be individually washed, or replaced in a matter of seconds. The fabric is UV stabilised so it is resistant to fading and does not get tangled. Fire retardant Veri Shades are also available. There is no PVC or filler in Veri Shades, and they have no cords, so are safe for kids and pets.

Functional, Versatile, Stylish and Elegant, Child and Pet Friendly, Easy Care, Easy to operate.
